

BEAUTIFUL BEADS

FOCUS: Increase an awareness and begin to foster an understanding of how people in South Sudan who are living in poverty receive little income regardless of time and effort.

INSTRUCTIONS: Create your very own South Sudanese Necklace/Bracelet

Design a South Sudanese patterned necklace using a variety of bead colours. Once you have planned out your design, thread the beads onto your string/wool to create your own individual piece of jewellery.

Set a time limit to create your own beaded necklace similar to those created by the women in South Sudan. The following link will provide some background information as well as some possible ideas:

www.youtube.com/watch?v=zEACBeWviR4&feature=youtu.be

How many necklaces do you think you can make in ½ hour, 1 hour, half a day or even an entire day?

As part of the Caritas Challenge, you may choose to sell your necklaces to contribute to your fundraising efforts. You may not even set a price - take what is offered for them or attempt to barter for a better price to experience how hyperinflation can result in minimal pay after a lot of effort and time.

RESOURCES NEEDED:

Wool / string / beading thread

Beads

Scissors / thread cutters

Crimp beads (optional)

Fasteners / closures (optional)

ADAPTATION:

The challenge can be altered to make 'friendship' bracelets instead of making beaded necklaces/bracelets if you don't want to purchase beads. Find out how to make these bracelets by carrying out your own Google search.

Beads could be purchased through the following links:
